# Summer Holidays Homework (2023-2024)

Class:VIII

Have a Happy and Happening Break. When April bids good bye and May Knocks in, we start thinking of the relaxing summer vacation. It is the time to be utilized in learning new things, helping others, exercising, socializing, reading, playing, exploring new places and whatever our heart desires.

Dear Parents,

We in our school strive to develop in children a broad range of skills, including the interpersonal and communication skills that are essential for successful living in a rapidly changing society. So therefore, you as parents can facilitate them in exploring their world within and around them. You can make plans and review activities with your children on daily basis.

Summer Holidays are the best time of the year when you get an opportunity to spend maximum time with your child. To beat the summer heat and make these days fun filled we have planned interesting activities which will enhance your child's creativity.

Summer brings with it the ever-smiling sun, scorching heat, ice-cream, shakes and holidays!! Holidays are the time for you to become teachers as well as friends. Vacations help your child to rejuvenate. So, let's make their summer break fun-filled with some exciting activities.

## **Suggestions for parents**

- All the written work is to be done in notebooks. Decorate the outer cover with child's drawing. Try to make your notebook as colorful and beautiful as possible.
- Keep all the things in a folder and label it properly.
- Make your child to converse in English at home regularly as the communication skills play a vital role in grooming the overall personality of the children.
- Encourage your child to do the activities himself / herself and appoint a specific time to do homework every day.
- Spend quality time with parents and avoid overuse of electronic gadgets.

## **Social Skills:**

Help your child become caring human being by developing the following habits, like:

- Giving respect to his/her elders and loving his/her younger one.
